

Dr. Dan C. Trigg Memorial Hospital 301 E. Miel De Luna, Tucumcari, NM 88401 **Phone:** (575)-461-7000

25 bed acute care critical access hospital, offers a full range of inpatient and outpatient services.

Emergency Room

The Emergency Room is of vital importance to all of Quay County and to every traveler along Interstate 40 and Highway 54. The next closest emergency rooms are 54 miles west, 89 miles south, and 110 miles east. The doctors, nurses, and techs of the Trigg Emergency Room are multi-skilled professionals who can take care of everything from a cut finger to a heart attack to a major trauma. The staff works closely with New Mexico and Texas flight crews to assist in any needed transfers to a higher level of care. These transfers may be accomplished via fixed wing aircraft from the local airport or via helicopter from the helipad located outside the emergency room.

Pharmacy

These dedicated members of our healthcare team stock and maintain the two Docu-med medication-dispensing machines. The pharmacy is a 'non-dispensing' pharmacy. We cannot provide medications for home use. When you are discharged from our facility, your healthcare provider will give you a prescription for any medications you will need to continue. You may then have this prescription filled at a pharmacy of your choice.

Physical Therapy, Occupational Therapy, Respiratory Therapy

The Physical Therapy department professionals are skilled in the art of body mechanics. Working in cooperation with your healthcare provider, we can help you safely learn to move those parts of your body that have suffered an orthopedic or nervous system injury.

Respiratory Therapy Dept. works with your healthcare provider to manage oxygen therapy, nebulizer treatments, and the ventilator. Contact the Therapy Department at 461-7000.

Radiology

The radiology department is often one of the biggest assets to your healthcare provider in helping to diagnose your medical problems. This team of caring professionals can perform the following tests: X-ray, Ultrasound, CT, and Mammography. The radiology department also works with Shared Imaging to offer portable MRI services to our patients, allowing people to avoid the long trip out of town for this test.

Laboratory

The laboratory staff are skilled in a variety of procedures, including testing blood specimens, maintaining equipment, putting patients at ease, and aiding in the diagnosis, management, and maintenance of your health conditions. The members of the laboratory teamwork daily to maintain their standing as a CLIA certified laboratory. We want each and every patient to receive top quality healthcare.

Surgery Department

The surgical department is a highly skilled team of healthcare professionals who are on-call 24 hours a day for residents of Quay County and the surrounding area. The department also works in cooperation with Eye Associates of New Mexico and podiatry services so you can avoid a trip out of town for eye or foot surgery.
